## ALABAMA, Southwest

### **Monroe County Northeast Portion**

**16 1200CST  
1330CST 0 0 2K Flash Flood**

Heavy rainfall caused several roads in the northeast part of the county to flood. The roads were mostly dirt and had to be closed for a little over an hour due to washouts and standing water. Weather radars estimated that four to six inches of rain fell in a four hour period in the area. The flooding was generally along State Highway 21 from Beatrice to McWilliams.

### **Clarke County North Portion**

**24 0400CST  
0500CST 0 0 2K Flash Flood**

Heavy rainfall caused several secondary dirt roads to be temporarily closed due to high water. Local weather radars estimated about six inches of rain fell west of Thomasville in a three hour period. No injuries were reported.

### **Clarke County Central Portion**

**27 1730CST  
1900CST 0 0 3K Flash Flood**

Heavy rainfall caused temporary street flooding along secondary roads off of US Hwy 43 between Jackson and Grove Hill. Local weather radars estimated that three to four inches of rain fell in a three hour period. As the storms moved out of the area, the flooded roads quickly drained.

### **Butler County South Portion**

**27 1750CST  
2000CST 0 0 3K Flash Flood**

Heavy rains caused several secondary roads in the south part of the county to flood. The roads had to be closed for about two hours. Weather radars estimated that three to four inches of rain fell across the area in a three hour period.

### **Crenshaw County Central Portion**

**27 1750CST  
2100CST 0 0 4K Flash Flood**

Several roads in the central part of the county had to be closed for several hours due to high water. Weather radars estimated that three to four inches of rain fell across the area in a three hour period. Many of the roads were dirt and some had large ruts in them from the heavy rainfall. These roads had to be closed until they could be repaired.

### **Wilcox County Southwest Portion**

**27 1750CST  
1900CST 0 0 2K Flash Flood**

Heavy rainfall in the southwest part of the county caused several roads to become flooded. These roads had to be closed for more than an hour, until the heavy rainfall moved out of the area. Weather radars estimated that four to six inches of rain fell across the area in a four hour period. Most of the rain fell near the Alabama River and the rainfall quickly ran into the basin.

## FLORIDA, West Panhandle

### **Okaloosa County Crestview**

**04 1950CST  
1955CST 0 0 Hail (1.00)**

Quarter size hail fell in the community.

### **Okaloosa County Baker**

**04 1950CST  
2000CST 0 0 5K Thunderstorm Wind (G58)**

Storm spotters reported that high winds blew numerous trees down near the area.

### **Escambia County Pensacola**

**09 1020CST  
1025CST 0 0 Waterspout**

Two waterspouts were observed in Pensacola Bay between Pensacola and Pensacola Beach. The waterspouts moved west parallel to the shoreline and dissipated over the water.

### **Santa Rosa County Milton**

**11 1330CST 0 0 5K Lightning**

Lightning struck the Santa Rosa county 911 center during the afternoon. It knocked the center off the air for several hours and they had to use a backup system to handle emergency calls.

### **Santa Rosa County Navarre**

**16 1835CST  
1845CST 0 0 Waterspout**

A waterspout was observed over the Gulf of Mexico south of Navarre Beach. The waterspout dissipated before reaching land.

					Killed	Injured	Property	Crops	

## FLORIDA, West Panhandle

### Escambia County

<b>Pensacola Beach</b>	<b>16</b>	<b>1835CST</b> <b>1845CST</b>			<b>0</b>	<b>0</b>			<b>Waterspout</b>
------------------------	-----------	----------------------------------	--	--	----------	----------	--	--	-------------------

A waterspout was observed just offshore of Pensacola Beach. The waterspout was observed by several people and was likely the same one that was observed by people off of Navarre Beach. The waterspout dissipated before moving ashore.

### Okaloosa County

<b>6 S (Hrt) Mary Esther</b>	<b>23</b>	<b>1010CST</b> <b>1015CST</b>			<b>0</b>	<b>0</b>			<b>Waterspout</b>
------------------------------	-----------	----------------------------------	--	--	----------	----------	--	--	-------------------

A waterspout was observed over the Gulf of Mexico, south of Mary Esther. The waterspout dissipated over the water.

### Santa Rosa County

<b>Navarre to 6 S Avalon Beach</b>	<b>23</b>	<b>1715CST</b> <b>1725CST</b>			<b>0</b>	<b>0</b>			<b>Waterspout</b>
--	-----------	----------------------------------	--	--	----------	----------	--	--	-------------------

A waterspout was observed over the Gulf of Mexico south of Navarre Beach. The waterspout dissipated over the water. The storm that triggered the spout then moved north across Navarre into Escambia Bay. The waterspout then redeveloped south of Garcon Point and dissipated before moving ashore. The storm never touched down over any land areas.

## MISSISSIPPI, Southeast

### George County

<b>Benndale</b>	<b>08</b>	<b>1540CST</b> <b>1541CST</b>			<b>0</b>	<b>0</b>	<b>4K</b>		<b>Thunderstorm Wind (G50)</b>
-----------------	-----------	----------------------------------	--	--	----------	----------	-----------	--	--------------------------------

Trees and power lines were blown down along State Highway 57 just south of Benndale.

### George County

<b>5 W Lucedale</b>	<b>08</b>	<b>1625CST</b>			<b>0</b>	<b>0</b>			<b>Hail (0.75)</b>
---------------------	-----------	----------------	--	--	----------	----------	--	--	--------------------

Dime size hail was reported along State Highway 26, west of Lucedale.
